

## IIIWAM Lima-2009

It is a great pleasure to invite all interested persons to attend the **III International Congress on Applied Mathematics (IIIWAM)**, to be held in Lima - Perú during March 31 to April 03.

We welcome not only colleagues in the field but also those persons, from industry and the sciences, who make applications of mathematics in their work. This congress aims to create a pleased environment to discuss mathematics and to interchange research result as well as to cover the developments in research in applied mathematics, the industrial applications of mathematics, and last but not least the interaction of mathematics with industry and the sciences.
